## **Who is Behind This Book**

**- and -**

### **“Why Should I Listen to You?”**

*I want to first thank you for requesting this book. I think that the information I give you here will help you in your quest to understand insurance companies if you are trying to obtain compensation for your injury case.*

*I have written this book so that consumers could have good, solid information before dealing with the insurance company. I truly believe that you should have this valuable information right now, for free, before you are pressured by an insurance adjuster to answer their questions or settle your case.*

*My name is Andrew Traub and I represent individuals against insurance companies. Most of my practice is accident, injury and litigation cases; so, if you want a divorce or have a traffic ticket, I can't help you.<sup>1</sup> You can find out more about me at my web site at [www.AustinAccidentLawyer.com](http://www.AustinAccidentLawyer.com), an award winning website. Thousands of articles are downloaded from the site each month.*

- *Experienced trying and settling cases*
- *Fighting Insurance Companies – never representing them*
- *Lecturer on Handling Personal Injury Cases for Lawyers*
- *Author of Numerous Consumer Books and Reports*
- *Office staffed with lawyers, not paralegals*

*Our law firm represents individuals throughout Texas in accident, injury, and disability claims. Our home office is in Austin, Texas.*

*We realize that a lawsuit may be the most important event going on in your life right now. Your case will be personally handled by one of our attorneys – not a paralegal.*

---

<sup>1</sup> If you live in Texas, call us anyway if you have a case in these areas. We can usually provide you with the name of other attorneys who may be able to help with your situation. We do not charge for this service.

The following is everything the insurance companies know about truth, justice, and fairness:

You've just read everything the insurance companies know about truth, justice, and fairness. If you read it carefully, you now know that they know nothing about truth, justice, or fairness and that's going to guide the way they act when it comes to your injury claim.

So, if you want someone who does know a bit about truth, justice, and fairness, perhaps you should consider hiring a lawyer with training in truth, justice, and fairness.

Sincerely,

*Andrew Traub*

## ***A Few Client Testimonials***

“I am very impressed with Mr. Andrew[‘s] service [he] always showed interest in my case. The key of providing good services to the client [is] keeping the client informed and returning calls as soon as possible at all times. That is what impressed me the most Attorney Traub did not have his secretary or assistance contacting me. At all times it was him.”

Alma Vega, Austin, Texas

“The report arrived one day after my inquiry! It is extremely well written and the information is organized in a clear and logical manner. 'Five Deadly Sins That Can Wreck Your Injury Claim' thoroughly explains Mr. Traub's philosophy, how to select an attorney, and what to expect during the entire claim/settlement process. Thank you for putting together such a helpful tool!”
